0020 0005

Churchill Co.

Item 10

NAME OF PROPERTY

Red Bird Group

Cye Cox - owner
Fallon, Nevada

LOCATION

In an unorganized mining district, Churchill County, Nevada, 45 miles southeast of Fallon.

GEOLOGY

Areal geology consists of a small limestone roof pendant in granite. Scheelite occurs in very small bunches in erratically occurring tactite ledges along the contact.

DEVELOPMENT

Development work consists of a few shallow cuts, from which a few tons of ore have been removed. Tactite is low grade, averaging 0.13% WO_3 .

No ore reserves.
