ITEM 44

Questions - Heidrick's thesis

(1) Do I really have a copy of Heidrick's plate 2?

(2) Bear Creek → Vanguard → Gulf Res (Bunker Hill) had - have the claims and at least one drill hole over the mag anomaly.

(3) When was ore discovered - 1866 Heidrick; 1869 Smith.

(4) Msw shown as ls on correlation chart ?? Supposed to be Pe1 ??

(5) Newmont's WW II drilling?

(6) Ward Mine - Walker Corp 1952-1955 drilling?

(7) What are the Λ s in Msw

(8) Where is a map showing the location of the measured sections.

(9) What do the blank rectangles in strat column represent?

(10) Hose says Lawson (1906) said Ruth Ls overlies Arcturus Ls - but Heidrick ~~puts Ruth~~ says Lawson (1906) says Ruth Ls is part of upper Ely Ls. ?? (p. 13)

Ask Hose first

(11) According to Hose Spurr's (1917) Arcturus is now Kaibab Ls - which makes Heidrick's upper Arcturus = Kaibab Ls (p. 13)

(12) Only the Water Canyon section shows the upper ss of Pe_1!

(13) Obtain remainder of 7½ min. quad geol maps in Ely area. Esp Giroux Wash & ~~Riepetown~~ Riepetown

(14) Missing the sand stippling in the Compilation sections (this not his thesis copy?)

(15) Silty and sandy lines at base of Riepe Spr Ls discussed & shown in text, but not in strat columns.

(16) Carlson, J.E. and Mabey, D.R., 1963, Gravity and aeromagnetic investigations of the Ely area, Nevada: U.S. Geol Surv Geophysical Invest GP-392 3pp.

(17) Hedrick p. 47 bottom — sanidine ?? , always called it Kf or orthoclase before.

(18) Errors in cross sections?

(19) Where did the 1000 scale 40 ft contour interval topo base come from?

(20) Where are the logs that the cross-sections were made from?
