Item 70

On October 2, accompanied by Peter Lorelemon, I visited the Monte Cristo tungsten deposit in the White Pine Range, White Pine County, Nevada. We met ~~Mrs~~ A. M. Phipper, J. R. Murphy, and D. B. Murphy ~~at the~~ there ~~property~~ and were shown the deposits on the Cabin Gulch and Steel King no - claims. Phipper and associates own the Mill Canyon group of claims in Sawmill Canyon, and have an option on the Steel King group. The Cabin Gulch group is owned by J. R. Murphy and D. B. Murphy, who have some sort of promotional agreement with Phipper. At present, Phipper, the 2 Murphys, and a miner are establishing a ~~camp~~ at the end of the road in Cabin Gulch and plan to make a shipment of ore from the Cabin Gulch claim to the Metals Reserve Co. in Salt Lake City.

Three groups totalling of claims cover
