Jensen and Ray mine

Albert Jensen and M. E. Ray - Owners

P. O. Box 912, Elko, Nevada

LOCATION

About 15 miles west of Mountain City on Lime Creek in the Independence Range. Elevation 8000 feet.

GEOLOGY

Limestone, with high silicification along fault structures. Lead, zinc, and silver specimens found occasionally in silicified lime. Values negligible.

DEVELOPMENT

A 100 ft. crosscut tunnel tapping the "vein", and a 25 ft. drift,

together with a few surface cuts constitutes the development. No ore of value is exposed.
