MINING ACTIVITY REPORT

Date: Jan. 9, 1959Esmeralda Co.
Item 2Mine name unknown - Barite Mine

Names previously used _____

Held by: lode claim ☐ ; patented claims ☐ ; other _____

Mining district _____

Mine location: T 1 S, R 40 E, S ; Esmeralda Co. East ofWecpah silver lead Rd. Good road to mine.Owner Turn Rt at sign - "Wecpah 4.6 miles"

Operator (lessor) _____

Address _____

Principal commodity BariteMinor commodities Lead (Galena)

Production shipped to _____

for sale to _____

Type of mining: Underground ☐ ; shaft ☐ ; adit ☒ ; other CutsOpen pit : Remarks Not operating. Has been mined
within 1 year.Mining stage: Exploration ☒ ; development ☐ ; production ☐ ; tons/day _____

Mine equipment & sizes _____

Mill: Flotation ☐ ; gravity ☐ ; leaching ☐ ; other _____ tons/day _____

Camp buildings _____

adequate for _____ men

Water supply: Spring ☐ ; well ☐ ; mine openings ☐ ; other _____

Power: Purchased from _____

Generated locally _____ power plant capacity _____

Number of men employed _____

Remarks (mine operation, unusual techniques, metallurgy) _____

GEOLOGY

Ore minerals Barite - vein 4-6' wide.

Large area intermittently developed.

A number of veins. Galena in barite

Gangue minerals Quartz & Calcite, some

Copper mineralization, & carbonates

Wall rocks ~~Meta-morphosed~~ limestone &

shales - semi-schists developed.

Beds folded abnormally.

Type deposit (structure and genesis) Fissure vein?

Ore reserves Small at present

Grade of ore Good barite exposed grades to poor.

Remarks (map of mine, location map, general observations):

Submitted by _____
