

0060 0035

PROPERTY NAME: Mill Site

OTHER NAMES:

MINERAL COMMODITY(IES): Qtz vein

TYPE OF DEPOSIT:

ACCESSIBILITY: Close to highway 172

OWNERSHIP: Recently staked

PRODUCTION: Mill served ores from the following mines;

HISTORY: Big Blossom, Cashier, Oriental and New Century

County: Nye

(103) Item 14

Mining District:

AMS Sheet: Goldfield 7E

Quad Sheet: Bonnie Claire NW  
Scotty's Junction

Sec. 23, T 8S, R 43E

Coordinate (UTM):

North

East

Zone

41200 must be wrong  
412000000 m  
04884110 m

DEVELOPMENT: Very old--near an abandoned narrow guage railroad.

ACTIVITY AT TIME OF EXAMINATION: None

GEOLOGY: The mill processed ores for a number of local mines none of which are operating. Activities at the site stopped in the 1930's and the equipment is no longer operatable. Ores were from mines with quartz veins in a granitic host. Sample 1951 was from the ore piles behind the mill and high in Pb, Ag, Sb, Cd, Sn Mn, with minor coper. Contamination from the mill was detected in local streams as shown in Sediment samples 201.
