PROPERTY NAME: Manna Claims	County: Lincoln
OTHER NAMES:	
	Mining District: Delamar Area
MINERAL COMMODITY(IES): Unknown  TYPE OF DEPOSIT: Unknown	AMS Sheet: Caliente  Quad Sheet: Delamar NW
ACCESSIBILITY:	Sec. 202, T 6S R 63E
OWNERSHIP:	Coordinate (UTM):
	North 4 1 4 3 0 0 0 m
PRODUCTION:	East 0 6 8 2 4 0 0 m
HISTORY:	Zone +11
DEVELOPMENT: _ Shallow shaft, adit.	
ACTIVITY AT TIME OF EXAMINATION: Recent staking (9/14/84), r	otary drilling.
Pook expected in norman NU trending h	411 4 1 -6 - 1 - 1 1444 - 1 1
GEOLOGY: Rock exposed in narrow, NW-trending h	o obvious signs of any type of metallic
mineralization.	o obvious signs of any type of metallic
mineralization.	
REMARKS: Old shaft (1930-40's) sunk on cooling	fractures in rhyolite, adit dump has some
REMARKS: Old shaft (1930-40's) sunk on cooling secondary chalcedony in yugs. Area of rec	fractures in rhyolite, adit dump has some
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some
REMARKS: Old shaft (1930-40's) sunk on cooling secondary chalcedony in vugs. Area of rec toward Cyanide Reservoir.	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec toward Cyanide Reservoir.	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
secondary chalcedony in vugs. Area of rec	fractures in rhyolite, adit dump has some ent staking extends into valley to west,
