

Mining District: Wahmonie

0130 0100

East of 259

Item 11

Mine Name: Travertine deposit

MILS Sequence No.: 3202300068

Location: Sec. 10, T. 13 S., R. 53 E.

East of 259

County: Nye

Commodity: Travertine (building stone?)

Production: None reported

Geology: A 4- to 5-foot zone of travertine occurs in Cambrian limestone.

Development: The travertine is exposed by several opencuts or trenches.

Periods of Activity: Unknown, but probably prior to World War II.

References: Kral (1951, p. 207).

Mining District: Wahmonie

Mine Name: Wahmonie property (Sylvanite group)

MILS Sequence No.: 3202300066

Location: Sec. 17, T. 13 S., R. 53 E.

East of 259

County: Nye

Commodity: Silver, gold

Production: The amount is unknown; however, it was probably small.

Geology: The geology is presumably similar to the Silver Horn mine. Some \$32 (per ton) ore was reportedly found on the 65-foot level.

Development: Workings include a 500-foot shaft; all surface building have been removed.

Periods of Activity: The district was discovered prior to 1905 and rediscovered in the 1920's. A strike of high-grade silver-gold was made in 1928.

References: Kral (1951, p. 207).

118p = \$17.70
