

0150 0002

NAME OF PROPERTY

Levison Mercury Mine
David Levison - Owner
1119 Gordon St., Reno, Nevada

Storey Co.
I tem 2

LOCATION

5-1 One mile south of Clark Station, Storey County, Nevada.

GEOLOGY

Opalized and kaolinized tertiary volcanics in which cinnabar occurs sporadically distributed in small veinlets and pockets.

DEVELOPMENT

Shaft 35 ft. deep, with 85 ft. of exploratory drifts. Samples indicate ore areas contain mercury in quantities ranging from 1 lb. to 15 lbs. per ton. No tonnage estimate possible.
