Item 50

Mining District: NORTHERN WARM SPRINGS MOUNTAIN AREA-SOUTHERN DOGSKIN  
MOUNTAIN AREA  
(Mineral Commodities Unknown)

(16 of 18)

T. 22-23 N., R. 20 E.  
Washoe County, Nevada  
USGS Dogskin Mountain 15-min. quadrangle (1957) and  
Sutcliffe 15-min. quadrangle (1957)

#### GENERAL BACKGROUND

This area encompasses the mountains and ridges on the eastern edge of Warm Springs Valley and west of State Highway 33. Included in the area is the southern end of Dogskin Mountain, the northern end of Warm Springs Mountain, and the small peak at the northern end of Hungry Valley.

Washoe County Records indicate that several groups of mining claims are in this region. However, the area has not been examined by the writers and the nature of mineralization, if any, is not known. The geologic literature makes no mention of the area, nor is any mining activity indicated on recent topographic maps.

#### GEOLOGICAL AND TECHNICAL DATA

Bonham's (1) geologic map indicates that the mining claims are located on granitic rocks of Cretaceous(?) age.

#### POTENTIAL FOR DEVELOPMENT

Unknown.

#### COMPANIES AND CLAIMANTS ACTIVE IN AREA

The following list of claimants have been identified in the area:

- |  |   |   |
|--|---|---|
| 1. VIGILANTE Group<br>Sundown Mining Co.<br>PO Box 5266, Reno<br>Nov. 1971(?)<br>(3 lode claims) | 2. DOUBLE JACK Group<br>J. Taylor, et.al.<br>1450 Skyline, Reno<br>Apr.-Dec. 1969<br>(40 lode claims) | 3. FTN Group<br>F. Smith<br>1735 Belford<br>Sept. 1962<br>(5 lode claims) |
| 4. RB Group<br>Rod Baker<br>(27 lode claims)   | 5. LONG GREEN<br>F. Smith, et.al.<br>1735 Belford<br>Apr. 1971<br>(placer claim)                      |   |
