Taylor Mine (Hana Mine)

Snake Mountain Range, 7 mi. N. Osceola
(A. D. Taylor and H. A. Waller - owners)
See U.S.B.M. Report.

Bunker Hill Mine

Egan Range, 14 mi. road from Ely. (C.
M. Richardson - owner) Old abandoned mine.
incl shaft, tunnel, drift. Silver - Lead.

Greer Chief Mine

White Pine District, 3/4 mi. from
Kimberly. (Jennie Pramenko-owner) Two
shallow shafts. Silver - Copper - lead.

Cabin Gulch Mine

Cabin Gulch, Hamilton Range, 15 mi. S Ely,
(Murphy Bros. - owners) See U.S.B.M. report.

Tungstonia Property, Tungsten
Minerals, Inc.

Tungstonia District, Tungsten, 224(1944).

Tungsten Metals Corp., West
Everit Mine, East Everit Mine,
Oriole Mine, Chief Mine

Shoshone Mining District (Minerva District)
Hilltop Mine (milled at Tungsten Metals
Corp. mill) Tungsten, 424(1945).

May Queen Mining Company

T21N, R65E., Aurum District. 30 tons
sorted ore assayed, 5 percent lead, 5 oz.
silver. Lead-silver occurs with limonite in
highly siliceous iron stained outcrop. U.S.B.M.
2 verticle shafts to 100 ft. deep. Head-Silver.

Cherry Creek Tungsten Mining Co.,
Cherry Creek Mine, Ticup Silver
Mine, Chance Claim (1200' N Ticup
shaft.)

Cherry Creek Tungsten District, Tungsten,
216(1944)

Deer Trail Tungsten Company

T10N, R66E, 53 mi. UPRR, Pioche, (Ely,
Nevada). See R.F.C. file "A" Wp-7.
Tungsten. October 1943.

McEllin Mine

White Pine District, Sec. 14, T16N,
R57E, (C.A. Gardner, Box 216, Kimberly)
Lead - Silver - Zinc. See Wp-13, R.F.C.
File "A". August 1943.

Lyle Marker, F. Cerny, B. Easter
lease, Robinson shaft.

Robinson District, Sec. 5, T16N, R62E,
M.D.B. and M., (300' vert. shaft and two
short levels 100 and 180) Copper - Lead
Zinc, July 1943.

(White Pine County continued)

Ely Amalgamated Copper Company

S22, 27, 34, T18N, R64E, 10 mi. N of Ely, W of Piermont District, owner - Kepaw mining and milling company. 10 pat. claims. Ore occurs in fracture system cutting Ls sedimentary beds - major fissure E-W. U.S.B.M. numerous small surface pits - 2 incl. and 1 vert. shaft. Lead - Zinc.

Grand Deposit

Sec. 9, T20N, R66E, 30 mi. NE of Ely, Nev. Aurum District. 8 pat. claims, produced silver, later lead, zinc, and copper. 12,000 ton shipped from property. Ore bodies - replacement in Ls. as lenses and pipe-like bodies. U.S.B.M. Extensive mine working - incline shaft to 508 ft. Lead - Zinc - Copper.

Caviglia - Vietti Manganese

S end Shell Creek Range 11 mi. SE of Ely, Nevada District. Approx. 8,000 ton of ore average 88% Mn. shipped 1917-1958. Pyrolusite and Psilomelane occur in lenticular vein ore. (U.S.B.M.) Ls-shale contact (2 shafts 1,000 ft. apart). Manganese.

Tungstania Property

65 Mi. E-SE from Cherry Creek, Tungstania District. 5 veins comprise mineralized area - roughly parallel. Stk N20°E dip 55-60°E. Ore occurs in quartz filled veins few in. to several ft. in width cutting coarse grained granite. U.S.B.M. 80 ft. shaft - 2 adit level 200 ft. and 700 ft. Tungsten.

Pioneer Copper Mine

Sec. 15-21-22-23, T24N, R57E. 52 mi. "NE" Ely, Nevada. Silver discovered in 1869 ore occurs in Ls and quartzite on or near contact with quartz monzonite. U.S.B.M. Old Working caved. Copper.

Rattlesnake Heaven Fluorite Deposit,

4 placer lode claims Sec. 25, 26, T14N., 1,000 ft. from U.S. Highway 6 at a point 4 mi. E of junction with U.S. Highway 93. One sample across 4 ft. in west face of large pit. Ca F2

(White Pine County continued)

5 Morning Star Mine

P13 File A-

Kinsley District, 6 mi. hwy and 16 mi. dirt E Boone Springs, hwy 60. (S. A. and S. V. Walsh - leasers) Old incl. sh. bad shape; 3 short levels with a few pillars over in Morning Star Claim. Silver - Copper - Lead.

6 Tungstonia

P19

Tungstonia District, Sec. 27, T21N, R69E, 65 mi. E Cherry Creek, (Ely Gold Mining Company, Ely, Harry W. Parker - owners; Tungsten Minerals Company - lessee, J. M. Ecoles, 302 David Eccles Bldg, Ogden, Utah, President) 2 tunnels, 280 and 550' long. 280' tunnel is on X-cut and didn't reach its objective. The 550' tunnel driven on vein. 3500 T ore extracted and milled. (U.S.B.M. -20,000 T o.5% WO₃ reserve) Tungsten.

7 Deer Trail Tungsten Mine

P20

5 mi. W U.S. hwy 93 on Sheep Creek, E slope Schell Gr. Range, T10N, R66E, 53 mi. PRR Pioche (RFC Exam WP-1) (Deer Trail Tungsten Company, A. Demelik, Nevada Hotel Ely - Owner) 25' tunnel and numerous surface cuts on outcrop of vein for about 450'. Samples indicate WO₃ 0.13% to 0.52%. Tungsten.

8 Associated Tungsten Mines

P24

Osceola District, Ohio Creek Canyon, (Lessees of Hungry Three, Pay Check, Sky Mine, Apex and Skipper Claims, owner unknown) Shallow surface cuts, shafts and tunnels with max depth 50'. Narrow quartz veins. Tungsten.

9 Sunnyside Mine (old Centennial Mine)

P24

Robinson District, 1 mi. N Ely, (Farnsworth, Ely Combined Metal Mines, Inc. 5th and Lyons Streets, Ely owners) Shallow tunnel and shafts about 100' along outcrop. 1800' adit, tapping vein at 1300' - 500' below surface. Copper.

10 Dirty Shirt Tungsten

P27

Osceola District, Sec. 24 - 25, T14N, R67E, MDB&M. (J. R. Henry, Ely; Wm. Spencer, Salt Lake City, Utah - owners) 97' sh. 600' adit 300' below in elevation. Shaft has 55' and 90' level below collar. Little drifting tunnel in W. side of dike for 500' no milling ore exposed. Tungsten.

(White Pine County continued)

11 Al Dees Tungsten Mine

P 28 File A

Bald Mountain District, S end Ruby Mountains, Turn N 15 mi. E Eureka on U.S. 50 and 60 mi. N up Newark Valley - dirt road. (D. A. Dees, Eureka - owner; A. H. Garrell - lessee) 4 shallow tunnels, small shaft, 25' in granite. Tunnel #4 entirely in granite, tunnel 1 and 3 in ore, Tunnel #2 in ore. Tungsten.

12 Isaacs Bros. Lead - Silver Mine

P 29

SE¹/₄ sec. 25, T16N, R57E. Between Hamilton and Shermantown. (Wm. E. and Otto Isaacs owners) X-cut tunnel 105' long drifts on adit level. 50' winze, 300' of drifting on vein from bottom of winze. Lead - Silver

13 McEllin Lead-Silver Mine

P 29

White Pine District, E slope White Pine Mountains, Sec 14, T16N, R57E, 50 mi. from Ely. (E. R. Woolley, Los Cruces, New Mexico and Ely, Nevada - owner. See also R.F.C. Exam W P-2.

14 K.B.A. Mine

P 32

Aurum District, E slope Schell Creek Range, Sec. 8 and 17, T20N, R66E, on Muncie Creek. (K. B. A. Mining Company, - lessee, McGill) 25' x cut tunnel, incl raise, 20' and 30' vert. winze. 100' drifts at top of raise. ²/₃ ZnCo₃. 2-5' wide on NW side main fissure. 20% Zinc. (Pb) Zinc - Silver.

15 Cherry Creek Tungsten Mining Company

P 38

Sec. 24-25, T24N, R62E and Sec 19, T24N, R63E Cherry Creek District, 4 mi. from Cherry Creek. (W. and C. Cleghorn and J. Boundy - owners) open cut 80' incl. shaft; old 1000' sh. with various levels at 100' intervals. 30 T float. mill on prop. 11/27/42 - 7/3/43, 2,028 units WO₃ produced from 40.5 T. concentrates. Tungsten.
