

A DESCRIPTION OF GROUPS OF PATENTED
MINING CLAIMS OF SPECIAL MERIT OWNED BY THE COUNTIES

By Bernard York, Field Engineer
Nevada State Bureau of Mines

The data sheets on certain groups of county-owned patented mining claims that show special merit in the writer's opinion have been grouped together, being selected for special description from the general file compiled in the last half of 1939. For the purpose of reference and the mention of special merits, they are grouped into counties and then numbered.

Each data sheet contains as far as possible the following information: County, Mining District, Name of Claims, Mineral Survey Number, Former Owner, ~~Survey~~ Location, District, and a general description of the Geology and Mineralization, and the following descriptions will serve to identify the ground and give the favorable features.

-10-

WHITE PINE COUNTY

Sheet 40. Badger, Blue Bird, Blue Bird Nos. 2, 3, 4 and 5 and Tip Top claims are situated in the Ruby Mtn. District in the Eastern part of Bald Mtn.

The outcrop contain porous material with some copper stains which indicates that the primary minerals have been leached out by decending water.

The property can be easily explored by churn drilling if the study of the outcrop reveal evidence of sufficient leached copper to form important bodies of secondary ore.
