Dear Gentlemen:

In view of your buying and locating mining claims throughout the State, I am writing you to offer a service to you, to act in your behalf in the selection and purchase of mining properties with good potential in districts throughout the northern portion of the state. One such district being the Adelaide or Gold Run District of Humboldt County, a base and precious metals district. I am also familiar with number districts through northern California.

I also own various base and precious metal mining properties myself.

I would work on a percentage basis, and I would also consider selling certain properties in various districts which I personally own.

Hoping to hear from you, I am,

Sincerely,

John M. Torok

TO: Mr. A. J. Anderson
FROM: L. Bunker
SUBJECT: Claims For Sale - Several Parcels in Separate Areas

Owner or Agent: Vimas Mining Operators
Mr. Vic L. Smith
Tonopah, Nevada 89049

Location:
4 Patented claims - The Sparrow, Wren, Blackbird and the Halifax from the 100 ft. down. These claims are in the Tonopah Mining District, and located between the Fred Steen claims and the Hughes Tool Company claims.

In the Ione Mining District, Nye County, Nevada, near the town of Ione.

Parcel 1 - 14 Unpatented claims called the Jet Copper Group.
Parcel 2 - 43 Unpatented claims called the Blue Silver Group.
Parcel 3 - 20 Unpatented claims called the Blue Copper Group. They are adjacent to the Blue Silver Group.
Parcel 4 - 10 Unpatented claims called the Copper Silver Group.

Mr. Smith reports that these claims have good showings of gold, silver and copper.

Cloverdale Mining District
1 Unpatented claim named Gold Better in Ledbetter Canyon. 15 miles Northeast of Cloverdale. A good gold showing - other open ground adjacent to this claim.

5000 acres, 6 miles Southeast of Cloverdale on the road to San Antonio, and 38 miles from Tonopah.

(Mr. Smith reports that this is in the area where Anaconda, Helca and Homestake are drilling. They are developing large bodies of copper and molybdenum and are still in good ore at the 2200 ft. level. They are to start operations this Spring. A railroad is going to be build from Mina, Nevada to the property.)
Maps:

Mr. Smith reports that he has all the original maps of the Tonopah Mines except those of the West End, and also many geological reports and assay returns. (He did not offer to give them to Hughes Tool Company but they were available to be seen.)

Report:

The information herein reflected is the report from Mr. Smith. He is a pleasant man to talk to, but he is a promoter and has other properties that he is involved in.

Respectfully,

L. Bunker
