Dear Sir:- Re:- Colemen Accident

Yesterday (Dec.3rd) Coleman put in his first shift as tube mill man at the Tonopah Extension mill, thus ending his period of disability.

At one time Dr.Church expected to operate again on the tongue, but now he thinks it best to leave it as it is. In healing a depression was left near the root of the tongue as indicated in the sketch.

This ends the case as far as the hospital is concerned.

Yours truly,

Tonopah,

Mr.E.S.Cunningham,Asst.Supt.,

Dear Sir:-

Enclosed are OK'd duplicates of Dr.Church's bill for services in the H.D.Colemen case. This bill covers Dr.Church's services only; besides this there is a hospital bill to be presented at the end of the month.

Coleman left the hospital on Monday, Nov.10th, but will not be at work for about three weeks more. His tongue failed to heal properly, and will probably require an operation to correct this.

Dear Sir:

I find that I will need a record of the labor paid to the employees at Belmont, from December first, 1918 to November thirtieth, 1919, for figuring the Bonus to be paid to Employees by this Company.

As you are the only one still in the employ of the Company, all that will be necessary is a statement showing the total of all the LABOR paid during the period, and the amount paid to you for LABOR for the same period. Totals only are required, not a statement of the amount paid to each one.

The labor paid to you from this office should not be included as it will be added from our records. Please sign the statement.

PHILADELPHIA, November 2, 1918.

Mr. Jay Carpenter, Supt.,

Belmont, Nevada.

Dear Sir:

Referring to your letter of October 19th, enclosing statement of accounts for the months of August and September 1918.

It is not necessary for you to keep any elaborate accounts at Belmont during the period that the work is being done there under the option agreement and before decision is made as to taking over the property, as all that it is necessary for your accounts to show is the receipt of funds from the Philadelphia Office and receipt of funds and supplies from the Wonder Office, and the accounting to the Philadelphia Office for their distribution, as the Wonder Office closes their account into this office for us to take care of. The only items you should show on your balance sheet would be the cash and supplies you have on hand, any unpaid accounts, and the Philadelphia Office account. All of the other accounts you should close into this office at the end of each month in your report of disbursement of the funds sent you. In making your report of disbursements, you are to classify for what purposes the expenditures have been made, so that we can make a proper division on our books.

You are also to send us, as you have already done, a list of the vouchers you issue, a list of the payroll checks, and a reconciliation between the amounts reported and the account carried in the Tonopah Banking Corporation. This will simplify your office work very much, as it will not be necessary to install a regular system of operating accounts unless we should take over the property and a new company formed for its operation, at which time the proper system of accounting will be installed.

We are enclosing a suggested form of statement showing the receipt of funds and supplies, and their distribution. You may find this of interest in devising a form to cover your requirements.

Very truly yours,

Edw Higbee
