

0600 0002

NAME OF PROPERTY

Black Horse Group

Leonard Becker-Jurgen - lessee
Coaldale, via Tonopah, Nevada

LOCATION

T. 2 N., R. 34 E., Esmeralda County, Nevada, about 15 miles from Coaldale.

GEOLOGY

Scheelite occurs in varying concentrations in limestone beds which have been characteristically garnetized through contact metamorphism.

DEVELOPMENT

Two short adit tunnels and a short crosscut, together with several surface open cuts on the outcrop. Sampling indicates an average weighted grade of 0.13% WO_3 over a width of 7.9 feet.

No ore reserves.
