NEVADA
PERSHING COUNTY

Vanderburg 1936

BLACK KNOB DISTRICT

Several miles southwest of Black Knob Peak in Humboldt Range and 12 miles by road east of Kodak.

SUTHERLAND Antimony mine, three unpatented claims owned by Texas Mining and Smelting Co., of Laredo Texas. In early days ore was furnaceed with no satisfaction.

About 4500 tons of 35% antimony ore was produced in World War I. Most antimony produced in Nevada.

Developed by a 210 foot shaft and some lateral workings. Antimony vein in calcareous shale near rhyolite flows. Ore minerals consist of stibnite and antimony oxides.
