

0640 0001  
NAME OF PROPERTY

Hogback Manganese

Chrystle Oxley Graves - P.O. Box 1775, Las Vegas, Nevada - owner

LOCATION

Black Mountain Mining District, Clark County, Nevada. Nearest railroad station - Boulder City, 8 miles from Las Vegas - Boulder City highway over rough desert roads to the low foothills on the east slope of the Black Mountain Range.

GEOLOGY

Tertiary volcanics. The claims cover an old eroded surface of the peneplain of pre-Black Mountain uplift. Andesite. Stringers and veinlets of manganese oxides associated with quartz and calcite occupy fractures and fault planes in the andesite. No ore in quantity or of economic grade found on the property.
