PRELIMINARY REPORT ON SOMERVILLE CLAIMS.

Presented by Chas. F. Goss, Benton Station, Calif.

NAME AND OWNER

Somerville Claims; property under option to Chas. F. Goss.

LOCATION AND HOLDINGS

The property is located in Mineral County, Nevada, near Esmeralda Co. line, 5 miles from highway (Tonopah-Bishop) at Queen's Station, and at point 75 miles from Tonopah.

There are 4 claims in the group.

ACCESSIBILITY AND TRANSPORTATION

Property at elevation of about 8500 feet and accessible by fairly steep road from highway.

GEOLOGY

The country rocks are limestone and shale that are overlain by Tertiary porphyries and are probably intruded by these.

The sedimentary beds have been subjected to much folding, but the general dip is fairly flat.

The beds have been cut by fissures that strike east-west and also some that strike north-east and south-west.

VEINS AND ORE BODIES

Mineralization occurs as small lense deposits along the fissures that cut the sedimentary beds (shale), but in no one place has more than a few tons been taken out.

Mr. Goss stated that all the material in the vicinity of these bunches of ore was mill ore, but my sample showed no value.

SAMPLING AND ASSAYS

No.	Width	Oz. Gold	Oz. Silver	Value	Location
1	3.5 ft.	Tr.	0.50	\$0.38	West end of property
2	5.0 ft.	-	.06	0.05	Fissure (S. 55 deg. E.)
3	5.0 ft.	-	.06	0.05	Vein portal caved tunnel
4	10.0 ft.	Tr.	.08	0.06	Middle Tunnel XCut
5	4.0 ft.	-	.06	0.05	Next tunnel east.
6	3.0 ft.	-	.06	0.05	Just below 6" ore streak.
7	Grab of dump-		.40	0.30	Grab of dump below tunnel

NOTE: Some pieces of ore in above dump not included in sample may raise results of Sample #7 by 1 oz. per ton.

DEVELOPMENT

Probably 500 ft. of tunnels (old work).

PRESENT EQUIPMENT

None.

POSSIBILITIES

Practically none.

CONCLUSIONS

Not interested.

DATED- July 23, 1937. For- The Tonopah Mng. Co. of Nev. By- Wm. Sharp.
