Mercury Gold

PRELIMINARY REPORT ON MONTANA GROUP (MERCURY).

Presented by Chas. F. Goss, Benton Station, Calif.

NAME AND OWNER

Chas. F. Goss.

LOCATION AND HOLDINGS

The property is located 6 miles from the Arlemont Postoffice, in the White Mountains, Esmeralda County, Nevada.

There are 8 claims in the group.

ACCESSIBILITY AND TRANSPORTATION

Property is accessible by road 20 miles from highway, and 50 miles from Tonopah, Nevada.

GEOLOGY

The country rock is shale, through which hot waters carrying cinnabar and silica have mineralized an area a hundred feet wide by roughly a mile long.

Most of the mineralization, however, shows only a trace of mercury.

SAMPLING AND ASSAYS

No.	Mercury %	Oz. Gold	Value	Location
1 (heavy iron)	-	.01	\$0.35	West end property
2 "	"	Tr.	-	" " "
3 "	"	.02	.70	Pyrites west end property
4 (heavy black Mn. stained iron)	2.0%			Open cut. Top hill west end property
5 (yellow ochre same cut	0.16%			Across 20 feet same cut.
6 (mineralized shale)		.08%		Cut east end property.

DEVELOPMENT

One 150 ft. tunnel and several cuts.

PRESENT EQUIPMENT

None

WOOD, WATER AND POWER

Wood and water available.

POSSIBILITIES

Too low to be interesting.

CONCLUSIONS

Not interested.

DATED: July 8, 1937. For- The Tonopah Mng.Co.of Nevada. By- Wm. Sharp.

TYPED: July 24, 1937.
