(151) Item 18

PROPERTY NAME: Unnamed Prospect (Not the Silver Sides as
shown on the map).

OTHER NAMES: _____

MINERAL COMMODITY(IES): Quartz veins in thin bedded sediments.TYPE OF DEPOSIT: 1/2 mile south of Indian Creek Road

ACCESSIBILITY: _____

OWNERSHIP: _____

PRODUCTION: Unknown

HISTORY: _____

County: LanderMining District: BullionAMS Sheet: WinnemuccaQuad Sheet: Crescent Valley 15'Sec. 6, T 28N, R 47E

Coordinate (UTM):

North 4 4 6 4 1 0 0 mEast 0 5 2 3 8 4 0 m

Zone _____

DEVELOPMENT: One unusable inclined shaft.ACTIVITY AT TIME OF EXAMINATION: NoneGEOLOGY: The prospect which I sampled from the dump #684 is small operation in thin bedded
shales beneath the Slaven Chert. The prospect was exploited by an inclined shaft
following some quartz veins in the highly folded and brecciated shale.The shaft is unusable small.The mineralization may have some promise but it's not the Silver Sides Mine.Photo #2 is the King Gulch Mine or whats left of it. I took this Photo to
illustrate the fate of the Turquoise mines in the district.
