DEVELOPMENT: Roads to the open pit site, the pit and drill-pads which were used.

ACTIVITY AT TIME OF EXAMINATION: None?

GEOLOGY: Large open pit (#300 ft. across) in cherts and quartzites of the Valmey Formation.
Some barite has been mined and stockpiled in the pit, Sample #400, which seems to have
exhausted the near surface potential.

Photo #21.

The drilling was done along a mile or more of roads but there was no follow
activity?
