County: White Pine 325 Item 35

Mining District: Cherry Creek

AMS Sheet: Ely

Quad Sheet: Butte Valley 1SE

Sec. 12?, T 23N, R 61E

Coordinate (UTM): ? Approx. Loc.

North 4 4 1 5 5 0 0 m

East 0 6 6 9 0 0 0 m

Zone +11

DEVELOPMENT: bench cuts & drill roads.

ACTIVITY AT TIME OF EXAMINATION: Currently being bulldozed (strip mining barite, possibly antimony and/or sulfides.)

GEOLOGY: Prospect series of even cuts and drill roads in saddle (see map). Some heavy equipment, no structures. Appears to be ore currently being sent to Cherry Creek. Ore occurring in brecciated ls and jasperoid filling vugs & veins. Barite also appears to be remobilized a weathered to gossany Jarosite (stilbite) Barite & jasperoid found in direct association. Brecciated area appears to be brecciated again with Jasperoid veining with in breccia.

REMARKS: Sampling 864-865,  
Photos.
