MINING ACTIVITY REPORT

Date:

Jan 8, 1957 (193) Item 17

Mine name Peterson Mine

Names previously used _____

Held by: lode claim ☒; patented claims ☐; other _____

Mining district Candelaria

Mine location: T _____, R _____, S _____

Owner Peterson

Operator (lessor) Peterson

Address Mina

Principal commodity Pb, Zn, Ag, Sb

Minor commodities As, Hg, Sb

Production shipped to International Smelting
for sale to _____

Type of mining: Underground ☒; shaft ☐; adit ☐; other _____

Open pit : Remarks Winze off of drift

Mining stage: Exploration ☐; development ☐; production ☒; tons/day 10-25

Mine equipment & sizes 220 Compressor. Cars & tracks

Mill: Flotation ☐; gravity ☐; leaching ☐; other _____ tons/day _____

Camp buildings 2 small houses

_____ adequate for _____ men

Water supply: Spring ☐; well ☐; mine openings ☐; other hailed

Power: Purchased from _____

Generated locally ✓ power plant capacity _____

Number of men employed 3

Remarks (mine operation, unusual techniques, metallurgy) operating
10 years

GEOLOGY

Ore minerals Bismuthite, Jambonite,
galena, argentite, gold

Gangue minerals Quartz, some selenium in
ore. Assays up to 0.37%

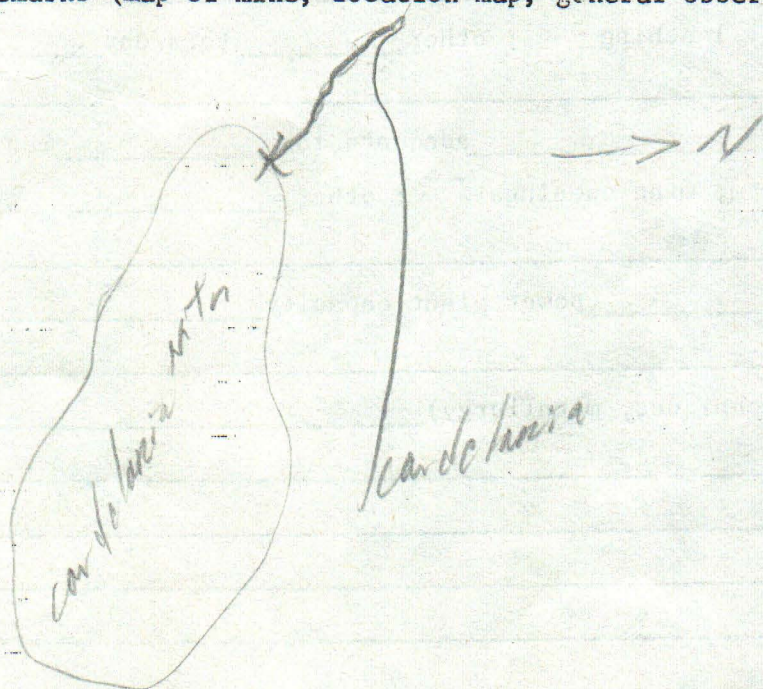

Wall rocks metamorphics & rhyolite

Type deposit (structure and genesis) Fissure vein

Ore reserves _____

Grade of ore 65% ore shipped.

Remarks (map of mine, location map, general observations):
