

Note: This map was redrawn on a reduced scale from an original print in the files of the Nevada Historical Society, Reno.

There was no date on the map, but was no doubt compiled in 1876, as the town of Candelaria had not been started - but the two mills were already in place at Belleville.

The titles were photographically reduced from the original map and attached to the redrawn map. Courtesy Nevada Historical Society. July 1975. Hugh Shamberger
