PRELIMINARY REPORT ON

(85)
item 2

Name and Owner.

Dave S. Llewellyn, -power-of-attorney for owners.

Location and Holdings.

10 lode claims, unsurveyed, 2-3 miles N.E. of Crow Spring; 22 miles from Tonopah.

Accessibility and Transportation.

Accessible by automobile.

Geology.

Country rock is granite and shale; some evidence of faulting.

Veins or Ore Bodies.

Narrow quartz veins in fissures in the granite.
Some evidence of faulting.
Values in Gold, Silver, and Lead.

Samples and Assays.

<u>No.</u>	<u>OzAu.</u>	<u>OzAg.</u>	<u>%Pb.</u>	<u>Value.</u>	<u>Description.</u>
1	.02	.80		\$ 1.20	Dump at W. Shaft.
2	.08	32.38		33.98	Small dump at E. Shaft.
3	.10	144.16		146.16	High-grade Pb ore, E. Shaft.
4	.04	5.20		6.00	Dump of shaft on cross-vein.

Development.

Two incline shafts, depth unknown, inaccessible.
Several shallow cuts.

Present Equipment.

None.

Metallurgy.

Wood, Water and Power.

None.

Price and Terms.

Possibilities.

Miscellaneous.

Conclusions.

Veins too narrow and values too irregular to be mined at a profit.

Not worth any further consideration.

Date.

2-9-22.
