

the brokerage house responsible for Arizona Silver Reef, Consolidated Silver, etc. Exact information is all but unobtainable, as the promoters of all these companies are apparently disinclined to give any real information.

Property: the Inskip group of 6 claims in the Unionville district, Pershing county, east of the Arizona Extension claims. The tract is said to show 4 to 8' of milling ore opened on the 70' level. A company report states there is "a considerable quantity of ore ready for extraction and treatment", at the Arizona Silver mill. A tunnel to give back of 200' is being driven. Also claims in the Sierra district, 20 miles from Unionville, which will eventually it is said, be operated by its subsidiary, the Sierra Silver Mines Corporation, which see. Company also said to own controlling interest in Silver Reef, Arizona Extension, Cons. Silver and a stock interest in Arizona Silver and Arizona Annex. See our opinion under **Arizona Silver Mines Co.**

UVADA TUNGSTEN CO.

NEVADA

Organized 1916, by A. V. Taylor, Dooly Block, Salt Lake City, to take over the Pilot Knob group near Osceola, White Pine county, said to show quartz veins in limestone, overlying quartzite, underlain by granite, but owing to low price of tungsten the property was allowed to revert to original owners in 1917.

VERDI DIVIDE MINING CO.

NEVADA

Office: Tonopah, Nev. and Reno, Nev. Paul Revert, agt.

Officers and directors: A. Revert, pres.; B. L. Revert, v. p.; and P. Revert, sec.-treas.

Inc. March 21, 1919, in Nevada. **Cap.** \$15,000; 1¢ par. Listed on San Francisco Stock Exchange.

Property: 6 claims, adjoining Tonopah Divide on its west end. This tract was located 18 years ago, and a 240' shaft sunk.

Development: a new shaft was put down to 300' in 1919, and an electric hoist and compressor installed. Careful sampling of 100 tons of ore on the dump show it to average \$25 per ton, indicating that the old shaft and workings are worth reopening.

VERNAL DIVIDE MINING CO.
