BULLITT BUILDING, PHILADELPHIA

Nelson, Nevada, July, 4, 1913.

Mr. J. E. Spurr,
571 Bullitt Bldg.,
Philadelphia, Penn.

Dear Sir- I have been talking with an intelligent miner who worked over at the Ben Ezra all of last winter.

He says they have opened up two shoots of high grade copper silver ore. The shoots are each ~~about~~ a few feet long and vary from one to four inches thick. I consider this information reliable and can, therefore, see no reason for visiting the property.

Very truly yours,

M. B. Huston

Nelson, Nevada, July, 2, 1913.

Mr. J. E. Spurr,

Philadelphia, Penn.

Dear Sir- Your letter of June 24th. regarding the Ben Ezra Mine of this District.

It is located in what is known as the Knob Hill section, about four miles ~~west of Nelson~~ south of Nelson.

Mr. Duncan has never been there and says he knows nothing about the country but that McKenzie has a reputation as a talker.

I can get no information here except what Mr. Brown told us, that all of Knob Hill carries copper and other base ores and they have never been able to handle them as yet.

As soon as the maps are finished I will go over there and see what it looks like.

Very truly yours,

M. B. Huston

My dear Mr Higbee
I have suggested
to my friend Mr Wm Mackenzie
that he write you in reference
to this property which should be of
interest in the event of you or
your associates being open to a
good thing in mining. It is the
best partially developed property
I have seen since coming to
this state. The Rand Mining Co
Pittsburgh Pa 1 1/2 miles from here
are operating a 10 stamp mill &
concentrator and have a fine
showing. If valuable mining
propositions are of interest
it would be well worth while
to make up a visit Both Mr
Mackenzie & myself would be glad
to extend all courtesies
