

17400008

PROPERTY NAME: Sample Site 2760

OTHER NAMES:

MINERAL COMMODITY(IES): Au/Ag

TYPE OF DEPOSIT: Vein

ACCESSIBILITY: Off the main road south of the
Microwave Tower

OWNERSHIP: Unknown

PRODUCTION: Unknown

HISTORY: Unknown

(225) Item 8

County: Nye

Mining District: Ellendale

AMS Sheet: Tonopah

Quad Sheet: Stone Cabin Rch 7 1/2'

Sec. T 3N R 47E

Coordinate (UTM):

North 4 214 380 m

East 0 524 380 m

Zone

DEVELOPMENT: A single shallow shaft

ACTIVITY AT TIME OF EXAMINATION: Recent drilling in and around the prospect

GEOLOGY: A shallow shaft and prospects follow a N55°W vertically dipping shear zone in highly altered, bleached and argillitized andesite(?). The vein is 2-3 feet thick, without visible mineralization and has been drilled along the strike to the north of the shaft, within the last few years.
