White Pine Co. General

PROPERTY NAME: ROCKY # 1 Claims  
OTHER NAMES: Silver King loc. mon. found nearby  
MINERAL COMMODITY(IES): Cu, Pb, Zn?  
TYPE OF DEPOSIT: Replacemnt along shear

County: White Pine Hem 50Mining District: EllisonAMS Sheet: LundQuad Sheet: SawMill Canyon 7 1/2'

ACCESSIBILITY: \_\_\_\_\_

Sec. 19?, T 12N, R 63E

OWNERSHIP: Rocky #1 claims located L.M. Pratt & Will Hendrix from  
Sandy, UT on July 18, 1978

PRODUCTION: ?HISTORY: ?

Coordinate (UTM):

North 4 13 10 16 16 2 10 mEast 0 16 17 9 1 7 0 mZone +11

DEVELOPMENT: Partially caved adit 12' deep. Dozer trench nearby, probably assessment work.  
Other workings not visited.

ACTIVITY AT TIME OF EXAMINATION: None.

GEOLOGY: The host rock for this deposit is a dark grey ls with calcite veining.  
Inside of partially caved adit is a large gossan pod with small amount of CuOxs  
staining oriented along a N-S, 75-80W shear zone. The gossan pod is irregular in shape  
& pinches out in the adit altho it looks as tho it was emplaced along the shear. Carbonate  
gouge & brecciation mark the shear selvages.  
The ls in the hanging & footwall shows little alteration indicating the mineralization  
occurred at low temps (200° ch)

REMARKS: Sample 843 - Gossan, punky with small pods of galena. Sample taken from shaft dump.
