SUBJECT Gene Barton - Bev. Hills - Report on Wild Rose and

VERBAL ORDERS DON'T GO • PUT IT IN WRITING

Tip top Mine.

Hello Dave: I am enclosing the report I received from Gene Barton on the "Tip Top Mine". From this you will receive a lesson in Geology and Ore Beneficiation.

Please do not let any one know that we are looking at reserves of 4,500,00 Flasks or I wont be able to keep this place under control.

I will leave the disposition of this matter and the examination of the properties in your hands. I am advising Gene that you have a copy of the report and will attempt to evaluate it as soon as possible. If you have any ideas of this let me know. I would not make a special trip down there, unless you have some information on it that makes it look real good. You could incorporate your visit on one of your trips down to the B & B. Production is going to be down at Mt. Jackson again this month. Just cant seem to get this damn place into full speed.

Kindest regards,

Clarence.

FROM

DEPT.
