Deer Trail Mine

Lookout N

Geyser Ranch 0.9 mi. N, 5 mi.  
W up air fair. ~~1/4 mile~~ to cabin  
at end of road. Dump is  $\frac{1}{4}$  mi  
N 70° W up the N side of canyon on  
about  $\frac{1}{4}$  mi N of stream = Main  
(N) fork of Canyon on E slope  
of Mt. Grafton. Alt. = 300-400 above  
sea level

The Geyser Ranch is so  
named from "boiling" or  
turbulent springs which are  
slightly artesian.

springs that are turbulent from slight  
artesian pressure

Cooper

R. End - Shaffs

1-12" qtz veins along  
crumpled ls bedding  
N 65° W 10-30° N 200' long

S End - adit

1-6" qtz + ls along ls  
bedding N 65°, 15° W.

West side of road is sh  
or v. thin ls. N, 15° W  
crumpled zones 5-10' thick
