

2190 0029

NAME OF PROPERTY

IXL Group

J. A. Frederickson and Elizabeth P. Frederickson,
and J. A. Egger and Clara Egger - owners
Address unknown

30

Item 26

LOCATION

Yellow Pine Mining District, Clark County, Nevada, about 11 miles from Jean.

GEOLOGY

Lead and zinc sulphide replacement in limestone.

DEVELOPMENT

Development work consists of an adit tunnel 60 feet in length and an incline shaft 200 feet deep, from which three levels have been established at 117 feet, 152 feet, and 184 feet below the collar. The shaft has been put down on the hanging wall of a mineralized zone estimated to vary in width from 20 to 60 feet. The footwall has not been exposed. Insufficient work has been done to estimate the lateral extent of the mineralized zone. Sampling of the accessible mineralized exposures indicates a possible grade of 1.3 ozs. silver per ton, 2.8% lead, and 1.8% zinc.

No ore reserves.
