PROPERTY NAME: Thomsen Mine

OTHER NAMES: \_\_\_\_\_

MINERAL COMMODITY(IES): GoldTYPE OF DEPOSIT: PlacerACCESSIBILITY: Property is 6 miles up Long Canyon on good road.OWNERSHIP: Merv Thomsen of Battle Mt., Nev.PRODUCTION: Has produced for thirty years or more.HISTORY: Early lode claims later a placer propertyCounty: Pershing Item 6Mining District: HaystackAMS Sheet: LovelockQuad Sheet: Long Canyon 7 1/2Sec. 16, T 34N, R 31E

Coordinate (UTM):

North 4 5 1 9 2 8 0 mEast 0 3 7 4 0 0 0 mZone 11DEVELOPMENT: Extensive including a 300,000 thousand dollar water system, large pit construction and road development.ACTIVITY AT TIME OF EXAMINATION: None

GEOLOGY: The workings cover most of section 16 and the NW corner of 21. The exposed workings are in granodiorite which include gold bearing quartz veins that are small and have not been developed. One such shear on the northside of the property bear N20°E and has stringers of quartz with possible gold in it was Sampled 2851. The vein was shown to me by Mr. Thomsen and we collectively sampled a highly oxidized limonite portion of the vein from a freshly dozed pit.
