

Township No. _____ Range No. _____ Mer.

A blank sheet of graph paper featuring a grid of squares. The grid is defined by solid lines, with each large square subdivided into four smaller squares by dashed lines. Numbers are printed at the intersections of the solid lines, beginning with '6' in the top-left corner and increasing sequentially to '36' in the bottom-right corner. The numbers are arranged in six rows of six, following a row-major sequence.

—

Under the second section of the act of March 3, 1883, authorizing a charge to be made for plats or diagrams, the fees for the same are fixed as follows:

For a township diagram showing entire land only.....	\$1.00
For a township plat showing form of entries, names of claimants, character of entry.....	1.00
For a township plat showing form of entries, names of claimants, character of entry, and number.....	3.00
For a township plat showing form of entries, names of claimants, character of entry, number, and date of filing or entry, together with topography, etc.....	4.00

There is no legal subdivision within the township which is not vacant, leaving the vacant tracts unmarked.

NOTE.—Purchasers of township diagrams at a cost of one dollar each are entitled to definite information as to whether each and every smallest legal subdivision within the township which is not vacant, leaving the vacant tracts unmarked. The character of the entries thus checked off need not be shown.

Scale 40 Chains to an Inch

Diagrams No. 182 are filed with field notes under Group 69. Investigation by Carl Linderholm 1919-1920.
