Gold, Silver, Copper, Lead, and Zinc Item  
in Nevada 28

2470 0028

*Island Mountain district.*—The Hammond Exploration Co. was building in December, 1917, a small mill in Patterson Gulch, 2½ miles northwest of Gold Creek. The plant will be equipped with a Huntington mill and other necessary machinery for amalgamation and cyanidation. Concentration tables will be added in the spring of 1918.
