PLATE 2

LEGEND

Quaternary	Alluvium	slaty shale	strike and dip of bedding
Tertiary	basalt welded tuff	fine to medium bedded sand	strike and dip of fault
	welded tuff	fine bedded lime	
	andesite dike	coar. fossiliferous lime, shale	
Pliocene	quartz porphyry dikes and duffs	western non-slope unbedded shales, sand and silts	
	granitic alluvium (Austin group)	unassigned	
Pleistocene	fine bedded sandy loam	unassigned	
	massive loam	unassigned	
Holocene	fine bedded loam	unassigned	
		unassigned	

- - - - - geological contact
 - - - - - synclinal fault
 - - - - - thrust fault
 - - - - - crest of low elevation
 - - - - - crest of high elevation
 - - - - - strike and dip of fault
 - - - - - strike and dip of bedding
