Mr. Louis Meade Dixon,
Messrs. Vargas, Bartlett & Dixon,
5th Floor,
195 South Sierra Street,
Reno, Nevada 89501.

Dear Mr. Dixon:

The enclosed correspondence from Mr. Donald B. Lamont to Mr. Frank W. Lewis and Mr. Lewis' reply concerning the Chromo Group, I believe, is self-explanatory.

Would you please take the necessary steps concerning Quit claim.

The details of the property as I have them are shown on the sheet numbered 38.

If further detail is needed you may contact Locke Goldsmith by mail or telephone at:

Dear Frank:

Re: Chromo Group (p38)

On May 1, 1968 we obtained information on this group from the Recorder's and Assessor's offices for Pershing County in Lovelock.

The two claims were leased to us as patented; in your brief summary on the claims you claimed that the title was "clouded".

Earlier the Bureau of Land Management in Reno indicated that these claims were unpatented; the Lovelock research verified the information. They have no record of your claim to ownership.

In addition they have no record of the claims being unpatents in good standing, or otherwise. Hence, you have not staked over the old boundaries, at least not using the property names furnished to us.

In short, according to the local garbled records, we have neither of the claims and cannot hope to get title to them without restaking providing the ground is open.

Would you please therefore inform us in detail with respect to the present status of each of the titles in dispute or in overlap as soon as possible. Thanks a lot.

Sincerely yours,

Donald B. Lamont

Dear Donald Lamont:

Your analysis of the above seems to be correct.

I suggest you delete it by Quit claim Deed from the contract.

In my original deliberations with James Buckley I had asked him if he wanted my good and my bad. He wanted everything.

MEMO TO: NORMAN H. VASEL
FROM: L. B. GOLOS MITH
SUBJECT: CHROMO GROUP (P38)

On May 1 we obtained information on this group from the Recorder's and Assessor's Offices for Peshing County in Lovelock.

The two claims were leased to us as patented; in his brief summary on the claims, Lewis claimed that the title was "clouded".

Earlier the Bureau of Land Management in Reno indicated that these claims were unpatented; the Lovelock research verified the information. They have no record of Lewis' claim to ownership.

In addition they have no record of the claims being unpatented in good standing or otherwise. Hence Lewis has not stated over

the old boundaries, at least not using the
property names furnished to us.

In short, according to the local garbled
records, we have neither of the claims and
cannot hope to get title to them without
restaking providing the ground is open.

I recommend that Lewis inform us
in detail with respect to the present
status of each of the titles in dispute or
in overlaps soon as possible.
