

NAME OF PROPERTY

2630 0011

281

Senator Group

Senator Mining Company  
Leonard C. Lundquist, co-partner  
2427 Lawton  
San Francisco, California

Item 11

LOCATION OF PROPERTY

Kennedy Mining District, Pershing County, Nevada, 55 miles south of Winnemucca.

GEOLOGY

Gold-silver bearing quartz vein in diorite averaging about 2 feet in width.

DEVELOPMENT

Development consists of a 340-foot adit tunnel and a short discovery tunnel at a higher horizon, lower tunnel connected through to the surface by 160-foot raise; about 250 feet of drifting on the vein on an intermediate level turned from the raise; and a winze sunk 17 feet below the tunnel level. This development work is said to have disclosed oxidized ore in the upper workings and sulphides in the lower workings. Mineralization is submarginal in grade.
