P.O. Box 20728

(Prong claims)

Reno, NV 89515

Picture # 5 on camera: looking NW @ workings on north edge of Leadville Proper.

Sample #2405: From main portion of district off dump.

All workings essentially caved. Very poor exposure as to what mineralization is related to. Most dumps composed of very fine altered material.

Picture # 6 on camera: Looking W-NW @ North side of Leadville area. Main portion of district lies in Canyon on left. Shot taken from main road.
