MOLYBDENITE

SE part of T. 43 N., R. 34 E.

Northern Humboldt County, S. end of Pine Forest Range.

Leonard Creek Area. Est. about one mile NE of Corral Springs  
AMS Vya Sheet, but this could be off a mile  
or two.

Reported to be at head of Snow Creek (not on AMS sheet) which  
is a tributary to Leonard Creek. Sec. 35

Blebs of molybdenite in 8' wide quartz vein in tactite? zone  
adjacent to granite. Associated with scheelite and some copper  
mineralization. Assays - 0.30% Mo.

Information from Ray Whiting, Winnemucca. He said Luther Goodwin  
is prospecting property and has his house trailer parked in  
Leonard Crk. near mouth of Snow Creek.
