Names of Claims:

The Wild Irishman, The Opportunity, The Speranza, The Lit Wop, The Lucky Strike, The Mary Ann No. 1, The Mary Ann No. 2, The Mary Ann No. 3.

Discovered in 1926, have been doing prospecting work on it ever since. This is a continuation to the best of my knowledge of the old Illinois vein that was lost years ago. I used to own a Garage and Machine Shop in Red Mountain, California, and went up there when I had time, but as I always had to make a living it has been hard to do as much work as I wanted too. Then the war came along and you could not do anything. Now I am going up there the last of this month taking a Geiger Counter and Metal Counter and going to check for Uranium and this other metal.
