

NAME OF PROPERTY

Copper King Group

S. L. Williams, 223 13th Street, Sparks, Nevada - owner

LOCATION

Seventeen miles north of Sparks in Township 21 North, Range 20 East, Washoe County, Nevada, 3.6 miles east of a point 14 miles north of Sparks on Highway No. 33.

GEOLOGY

Granitic intrusives.

DESCRIPTION OF PROPERTY

Copper carbonate occurs in fractures of the country rock at various points along a fractured zone. These have been explored through 2 tunnels, 40 and 80 feet long, and in a 90 foot vertical shaft with 23 feet of laterals at the bottom.

The ore occurs in the fractured areas in irregular shaped masses ranging from 12 to 20 feet wide. Samples assay from 0.6% to 3.1% Copper with from 0.2 oz. to 1.0 oz. Ag. No ore reserves estimated.
