

3090 0002

N of 259

Item 10

Map No. 16

Mining District: Mine Mountain

Mine Name: Mine Mountain

MILS Sequence No.: 3202300232

Location: T. 11 S., R. 52 E. north of 259

County: Nye

Commodity: Lead, mercury, silver

Production: None reported

Geology: All workings are in high-angle, normal faults, in brecciated quartzite and silicified dolomite. According to Cornwall (1972, p. 39), one sample contains 10 percent lead, 0.5 percent mercury, and 0.07 percent silver.

Development: Workings include four adits and two shallow shafts.

Periods of Activity: Claim notices indicate that the property was located in 1928.

References: Cornwall (1972, p. 39).
