THE TONOPAH MINING COMPANY OF NEVADA

EASTERN OFFICE 572 BULLITT BUILDING, PHILADELPHIA, PA.

PLEASE ADDRESS ALL COMMUNICATIONS
TO THE COMPANY, TONOPAH, NEVADA

J. S. AUSTIN, PRESIDENT

Tonopah, Nevada, August 24, 1916.

Mr. F. F. Heydenfeldt, 2420 Hopkins Street, Oakland, California.

My dear Heydenfeldt:

While I was away nine samples came in from you; as we received no letter instructing us what determinations to make, I have had them run for gold and silver and enclose herewith the returns.

I notice that Johnson is using a little of the dump ore from Millers, and while I was away a letter came in from Mr. Austin inquiring further about the idea of using the Millers dump. I am telegraphing him tonight, explaining what we wish to do, and may hear from him tomorrow as to our continuing the use of this dump. Johnson made the suggestion that we use it to fill in on the profits when the mine ore was running low, and the idea appealed to me as a good one. We would in the meantime supply ore in the same quantities as we have been doing from the mine.

If you can locate a breeder of Chesapeake Bay Retrievers, or someone that breeds a cross between a Chesapeake Bay Retriever and an Irish Setter, kindly ask for prices on a dog well enough broken to be of some use this fall.

Hoping that you are getting along nicely with your several operations, and with best regards to Mrs. Heydenfeldt, I am

Yours very truly,

WWBlankon

Superintendent.
