Item 7

Battle Mountain, Tin, continued.

the Southern Pacific railroad land grant limits, in which that corporation owns each alternate odd-numbered Section. It is just north of Eisenhut Springs, and some of the land is owned by Walter McGee. A portion of the land may be open for mining locations. It is stated that samples of tin ore, specimens, etc., have been found over a large area, but no deposit has been found in place.

Tailings

At this property, now long idle, there are reported to be several thousand tons of base tailings of good grade, rather badly scattered through the sagebrush. A number of years ago the property, mine and tailings was examined by Wm. Hooper, who is now county assessor of Eureka County at Austin, for a man named Shannon. Hooper stated to us that the mine has possibilities. The ore was gold-silver-copper. The tailings are said to contain much copper. (See Prof. Carpenter's notes, trip of 1931).

The property is now owned by W. H. Smith, address, Strawberry P. O.
Eureka County.

Barite

near 121

A large deposit of barite is located on Pine Mountain, 4 miles east of Raine, a station on the Eureka Northern R. R.

Mr. C. B. Sexton of Eureka, Gen. Mgr. of the E. N. R. R., states that the location is a better one, in respect to lower costs, from which to ship, than the
