

NAME OF PROPERTY

Associated Tungsten Mines

Lessees of Hungry Three, Pay Check, Sky Line, Apex and Skipper Claims
Owner - unknown

LOCATION

Ohio Creek Canyon, Osceola Mining District, White Pine County, Nevada.

GEOLOGY

Small quartz veins, erratically distributed in coarse grained granite. Average width 8 inches. Scheelite intimately associated in fine grained crystals in white quartz.

DESCRIPTION OF DEPOSIT

Veins of quartz persistent in strike for several hundred feet but maintain narrow widths. By careful selective mining and sorting, ore carrying $1\frac{1}{2}\%$ WO_3 may be mined. Development consists of shallow surface cuts, shafts, and tunnels attaining a maximum of 50 feet in depth.

PRESENT OR POTENTIAL ORE RESERVES

No tonnage estimates made.
