PROPERTY NAME: PX Group claims (Pan claims to south)	white rine / de
OTHER NAMES:	County: White Pine Hem Mining District: Pancake
MINERAL COMMODITY(IES): Au?, Ag?	
TYPE OF DEPOSIT: ?	AMS Sheet: Ely
	Quad Sheet: Pancake Summit 15'
ACCESSIBILITY:	Sec. <u>25,26</u> , T <u>17N</u> , R <u>55E</u>
OWNERSHIP: U.S. Minerals Exploration Corp., located May 2	
1981, PX Group claim block by Boyce Coob.	North 4 3 5 3 5 5 0 m
PRODUCTION:	East 0 6 0 8 5 0 0 m
HISTORY:	Zone +11
DEVELOPMENT: Large area of newly constructed drill roads, a of claim block.	few drill holes noted in southern p
ACTIVITY AT TIME OF EXAMINATION: Drill roads have been constructed,	and an individual continuent
(diamond drill) on day of examination.	moving in drilling equipment
GEOLOGY: Drill roads are in Pilot shale formation of oxi	idized red to buff colored silty sha
& siltstones. Siltstone are bleached & Fe-stained as s	seen in exposed cuts of drill roads
Andesitic basalts overlie sediments in area who	ere sample was taken.
The sample was collected from a 10' lateral sec	ction of exposed sediments on a dri
road not yet drilled but flagged as a future drill site	2.
REMARKS: Sample 887 - Taken from oxidized horizon expose	I do one of the uncompatite eleven
REMARKS: Sample 887 - Taken from oxidized horizon expose dridl roads. Sample taken across 10' lateral horizon o	d in one of the uppermost(in elevate exposed sediments. Sample is of
REMARKS: Sample 887 - Taken from oxidized horizon expose dridl roads. Sample taken across 10' lateral horizon o	d in one of the uppermost(in elevant exposed sediments. Sample is of
REMARKS: Sample 887 - Taken from oxidized horizon expose dridl roads. Sample taken across 10' lateral horizon o	f exposed sediments. Sample is of
REMARKS: Sample 887 - Taken from oxidized horizon expose dridl roads. Sample taken across 10' lateral horizon o altered siltstones of the Pilot Fm.	f exposed sediments. Sample is of
