(137) H-8.
Item 3PRELIMINARY EXAMINATION REPORT

State Nevada County Humboldt Mineral Products Manganese
Name of property Labor Day
Owner Gus Rodgers Address Winnemucca, Nevada
Lessee or
Operator _____ Address _____
Location About 40 miles northeast of Winnemucca in the Poverty Peak Mining District

Sample No.	% Mn	Width	Description	Examined July 1940
47	11.9	2'	From lenses 2' wide and 15' long in chert beds.	
48	25.6		Hand sorted from some lens.	

History and production Not known

Type Deposit (Geology) Two small lenses of impure manganese oxides in a cherty siliceous zone that can be traced for miles. One is about 15' long and 2' wide; the other is 75' long and 1' to 3' serpentine was noted in the area.

Mine Workings The lenses have been prospected by several small trenches.
