

3810 0009

PROPERTY NAME: Pine Shaft  
OTHER NAMES: Crow claim #59 (New group) Unclear owner 81'  
MINERAL COMMODITY(IES): Cu oxides yellow oxide on dump  
TYPE OF DEPOSIT: Vein quartz-barite  
ACCESSIBILITY: See topo sheet  
OWNERSHIP: ?  
PRODUCTION: Some, but small  
HISTORY: ? See Lnader Co. Bull - NBM

(159) Item 12  
County: Lander  
Mining District: Ravenswood  
AMS Sheet: Millett  
Quad Sheet: Gilbert Creek S.E. 7 1/2  
Sec. Unsurveyed  
T       , R         
Coordinate (UTM):  
North 4 4 0 3 0 6 0 m  
East 0 4 7 7 7 7 0 m  
Zone +11

DEVELOPMENT: 1) Open inclined shaft trends N 5° E at -45°, may be 200-300 feet of workings here 2) NE, 35 feet is a vertical shaft, open 25-40 feet deep. 3) There are also several small dog-hole shafts scattered about to the SE of those workings.  
ACTIVITY AT TIME OF EXAMINATION: None.

GEOLOGY: Medium brown calcareous shale is host rock for quartz-barite veins in faults veins material on dumps show a variety of oxide Cu 2-3 kinds of a yellow oxide of some kind.

REMARKS: 1) Sample #761  
2) Picture #1 on camera. Looking E-SE inclined shaft in fore-ground, vertical shaft, middle & small dog-hole back-ground.
