

3810 0012

(159) Item 15

PROPERTY NAME: Rast #133
OTHER NAMES: Lombardy (L H Claims)
MINERAL COMMODITY(IES): ?
TYPE OF DEPOSIT: Jasperoidal/veins(?)

County: LanderMining District: RavenswoodAMS Sheet: MillettQuad Sheet: Manhattan Mtn. 7 1/2'Sec. Uns., T 23N, R 43E

Coordinate (UTM):

North	4	4	0	8	7	9	0	m
East	0	4	8	5	8	0	0	m
Zone	+11							

ACCESSIBILITY: See topo sheetOWNERSHIP: ?PRODUCTION: ? NoneHISTORY: ? See Lander Co. Bull. NBM

DEVELOPMENT: Several surface dozer cuts. Looks like it was done for location work - southern most area on topo map. 2) Northern most area. Few dozer cuts like southern area. Can not see where any production has been made.

ACTIVITY AT TIME OF EXAMINATION:

GEOLOGY: Jasperoid with considerable Fe string covers the surface area of southern most area.

2) Northern area jasperoid material lying on surface just like southern area.

REMARKS: 1) No production from southern most area! !
2) Lots of current activity throughout the district. Several new (1981) sets of cabin posts.
3) Sample #763
